

HAWAII IS
RECOGNIZEDMedals Awarded For
Exhibits

AT THE PARIS EXPOSITION

Telegram From Commissioner Irwin
Announcing Awards—Business
at Governor's Council.

Hawaii's exhibits have received high recognition at the Paris Exposition. A telegram was received by the last mail from San Francisco, addressed to Governor Dole, from Commissioner W. J. Irwin, and was presented at the council meeting yesterday morning that tells how well the Hawaiian exhibits were considered. This telegram is as follows:

Paris, September 3, 1900.
Governor Dole, Honolulu, via San Francisco.

Received grand prize, primary education; gold medal, Kamehameha School; gold medal, sugar. IRWIN.
The primary schools exhibit consisted of examples of work done by the children in the various departments, and was complete in detail. That of the Kamehameha School consisted of samples of the work done in the manual training department and a large number of pictures. The sugar exhibit showed the whole system of raising sugar and preparing it for the market, as well as a statement of the export of sugar from the Islands, and something about the large plantations here.

Little also of importance was transacted in the meeting of the Governor's council. Mr. McCandless brought up the subject of wharfage charges at Hilo, and the matter was discussed at some length. No charge will be made for dockage at the Government wharf, but at any private wharf that may be erected such charges must be made in the future in all likelihood. No action was taken on the subject.

An application of George Barker at Lahaina for the lease of lands now used by the plantation company at that place, but upon which the lease has just expired. It is likely that no lease will be granted, and that the land will be thrown open for homestead entry, according to the United States homestead laws.

Mr. McCandless reported that Mrs. Gulick was willing to make an exchange of lands in Kailua along the Government road for a smaller strip belonging to the Government.

A request from Captain Slaker to build a small building on the grounds at the market place was presented by Mr. McCandless, and it was decided that no such permit could be granted, as the ground had been set aside for the market exclusively.

Mr. McCandless read the letter which he had addressed to the Bishop Estate Company in which he stated that steps had been determined upon for the condemnation of a road across the lands of the Estate Company to the Quarantine wharf.

AGE NO BAR.

It Does Not Enter Into the Question. You may have it and not know it. You may be young; you may be old. Symptoms the same in both.

A babe with weak kidneys has backache.

A man of 60 or 80 with weak kidneys has backache.

That's the way it talks with all ages. Doan's Backache Kidney Pills cure the babe and the man.

That's the way they do in all ages. No wonder, though, they're made for it.

They couldn't cure a simple case of colic.

But they cure bad cases of kidney trouble.

If your back aches, try them.

Writing under date January 10th, 1899, Jurgen Walter of this city tells us as follows: "My age is 79—well past the ordinary span of life, and I am the parent of eight children. Being so far advanced in years, I regard the relief obtained from Doan's Backache Kidney Pills.

I suffered from a lame back for years, but after taking some of the pills (procured at Hollister's drug store) was greatly benefited, and I am satisfied the pills did me much good."

Doan's Backache Kidney Pills are becoming popular in Honolulu because they are always endorsed by Honolulu people.

Our kidneys filter our blood. They work night and day. When healthy they remove about 500 grains of impure matter daily; when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disordered eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, or will be mailed on receipt of price by the Hollister Drug Co., wholesale agents for the Hawaiian Islands.

CHAMBERLAIN'S COUGH REMEDY
A GREAT FAVORITE.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by all dealers and druggists. Benson, Smith & Co., Ltd., general agents, Hawaii Territory.

Hawaiian sugar at the Paris Exposition came near being left in the lurch in the awarding of prizes. This was the opinion of Major George C. Potter six weeks ago who stated that the exhibit was so late that many of the awarding juries passed by before it was in position. He said then that the French commissioners made awards on the refined product only. Yesterday's advices from Commissioner W. G. Irwin, however, show that the awarding jury gave Hawaiian unrefined sugar a gold medal.

Under date of August 1, Major George C. Potter of the Hawaiian Commission to the Paris Exposition, writes from the French capital to Robert Shingle in regard to the affairs of the exhibit. His letterhead is styled "Section D'Hawaii, Palais du Trocadero." The following excerpt furnishes information of much interest:

Our exhibit attracts a good deal of attention and favorable comment. It is handsomely installed and the few Hawaiians who have visited us seem well satisfied. Among them are Kitwell, McHenry, Rycroft, W. R. Castle, Jr., Capt. Appleton of Boston, Rudolph Hering, the engineer who planned our sewerage system, and others who have visited or who have friends in the islands. We were too late to have the various juries visit us; most of their work was done when we got installed. I managed to get hold of the class juries on Sugar and Education and expect something from them.

Strange to say they judge sugar from the standpoint of the refined article, so that our sugars, good as they are, will not receive so high a mark as were the standard different.

The exhibits from the colonies of France are beautifully installed in appropriate pavilions; no expense or trouble has been spared and we were put to it to make our little exhibit show up at all. Cila just alongside of us has a very grand display. We come out very well, however, and would have pulled off more prizes had we been on the ground earlier.

UPPER MILLER STREET IN A DISGRACEFUL CONDITION.

There is a complaint from residents of Miller streets residing between Vineyard and Kinau streets on account of its condition. It is a thoroughfare that is much used, but since the sewer contractors moved with it, it is little more than a long dust heap. The fine dust permeates into every house and makes life miserable for householders. The street needs general attention from the street department and is sadly in need of repair. M. A. Gonsalves, Councilor of State, called the attention of the Council to its condition last spring, stating that in muddy weather it was almost impassable. In dry weather it is equally disagreeable to pedestrians. There are two schools on the Walkiki side of the street near Kinau, and the children are expected to wallow their way through the dust to gain the entrances. The entire stretch of street is certainly far from being an object lesson, or an education to the scholars. The street department would make a wise expenditure on Miller street improvements.

PAUHAH STREET EXTENSION AGAIN.

The old Mechanics' Home off Hotel street near the corner of Hotel and Nuuanu streets is doomed. The little cottage which have been there for so many years, and lately used as cheap lodging houses, are to go under the auctioneer's hammer. In their place will probably be erected buildings of a kind more befitting the value of the site. There will be a hitch in the commencement of building operations, however, until it is decided what is to be done in the matter of the extension of Pauha Street to Fort street. This extension would serve as an important artery into Fort and open interior land which would greatly increase in value.

McCULLY TRACT AND STREET BEING FILLED IN.

The Walkiki Land and Loan Association, the corporation which took in the vast McCully tract at Walkiki to sub-divide into suburban lots, has commenced filling in the low portions. McCully street is also receiving attention and the roadway is being filled with heavy base stone. A fine macadamized pavement will be laid along the entire street, sixty feet wide, from King street to its junction with Walkiki Road opposite the Kailua road, lower Walkiki. The street company has taken up the road with King street. This will open up a new thoroughfare for traffic and pleasure.

MOANA HOTEL IS NEARING COMPLETION.

The painters are putting the finishing touches on the woodwork of the beautiful Moana Hotel at Walkiki. The plastering was completed some time ago and the paper is being hung upon the walls of the many rooms which the great hotel encompasses. The power plant, built exclusively for the hotel, is also nearing completion. At present the contractors are installing the dynamo, cold storage and ice-making machinery. The hotel will be equipped with a modern plant for the preservation of its foods, the furnishing of light and power for machinery, and will produce all the ice necessary for consumption in the hotel. The electric elevator is also being put in. This is a large commodious affair and will run from the basement to the roof level. The roof level is a feature which the promoters of the hotel hope will be a successful one for the comfort and social life of the guests. It will be open at all sides, allowing free access to the breezes from valley or ocean and giving an uninterrupted view of both. In this place have been placed 400 electric lamps. It will be fitted up in a luxurious, tropical manner, with everything conducive to one's ease.

OAHU RAILWAY'S U. S. MAIL CONTRACT.

M. P. Robinson, treasurer of the Oahu Railway and Land Company, has, under the terms of a resolution passed at the last meeting of the directors of the company, been appointed to receive all moneys and attend to all transactions between the company and the United States Government in the carrying of mails. The contract which the company has for United States mail service, takes in the entire route of the road, both ways, making a total of 71.7 miles.

HONOLULU AND SAN FRANCISCO NEED MONEY.

San Francisco seems to be having as hard a time to get hold of a little ready cash as Honolulu. The money is tied up in the banks there. Tight seems to be a proper expression. According to the San Francisco News Letter, if a portion of this great volume of cash was allowed to spread itself out among the residents, a more thriving condition of California's industries will result. The News Letter continues: "The statements of the Bank Commission, showing the financial condition of the banks of California at the close of business on August 11th last are not coming in. Last week the condition of the savings banks of San Francisco was reported, and now we have the report of the city commercial banks. Both statements show an immense increase in the accumulation of coin. The gain of deposits in the savings bank amounted to over \$7,000,000, and the same account with the commercial institutions shows a gain of nearly one million and a half. If more of the money now tied up in the savings banks were in circulation here, it would indicate a more thrifty condition of our industry and less thrift of a kind which looks for remuneration in all interest returns, rather than from investment in enterprises which would tend to build up the city. The savings banks are hard put to it now themselves to find a use for the immense sums which they hold in reserve, and their loans on real estate for the past year do not show a corresponding increase with their deposits."

OAHU RAILWAY DECLARES A THREE PER CENT DIVIDEND.

A directors meeting of the Oahu Railway and Land Company was held yesterday afternoon at 3 o'clock in the office of L. F. Dickinson, Judd Building. The directors adopted a resolution declaring a dividend of three per cent on the capital stock of \$2,000,000, the dividend amounting to \$60,000.

It was decided also to erect an additional wharf at the railway terminus in the harbor. The vote was taken upon the question and all were in favor of the proposition. The new wharf will be about 500 feet long, and cost in the neighborhood of \$18,000.

PUNAHOU TRACT AND RAPID TRANSIT COMPANY.

The trustees of Oahu College have concluded an agreement with the Honolulu Rapid Transit & Land Company by which the latter company agrees to extend its tracks and operate the same through the Punahou tract now being laid out into lots in Manoa valley, in consideration of which the Punahou Trustees take \$50,000 of the bonds of the Rapid Transit Company. This will insure a rapid sale and development of the Punahou lots.

The trustees this week approved the final plan for the laying out of the lots, and a large force is now engaged in grading the streets. The engineer in charge is Mr. Tannatt, formerly of the U. S. Volunteer Engineer Battalion stationed in Honolulu in 1898. He has staked out a number of lots. As soon as this work is completed the entire section will be advertised for the sale of lots.

AUSTIN BLOCK ON KING STREET NOT TO BE BUILT.

Through some hitch in the proceeding the Austin trustees and heirs decided not to erect a building on the empty property on King street between Fort and Bethel streets opposite the Advertiser office. It was proposed to erect a three story, arched structure of pleasing design. By reason of pending negotiations for a portion of the property which is sought by other properties on a long lease, the heirs informed the agents here that the building operations would be stayed for sometime. Letters went forward by the Moana yesterday seeking to arrive at a settlement of the lease question and an answer is expected within the next three or four weeks.

BUSINESS MANAGER FOR OAHU COLLEGE APPOINTED.

W. H. Campbell has been appointed by the Trustees of Oahu College as business manager for the college. He will have charge of all receipts and expenditures connected with the institution, thereby relieving the President of these details.

NEW SUGAR COMPANY ORGANIZED.

The Pearl Harbor Agricultural Company has been organized in San Francisco and the incorporation papers therefor filed in Sacramento, says a Sacramento paper. The purpose of the company is stated to be the raising of sugar. The principal place of business will be located in San Francisco, and the control retained there also. The directors of the company are: W. M. Gardner, Oakland; Ed. Schwab, W. C. Webb, J. T. Donohue, W. B. Cope, San Francisco. Capital stock, \$25,000; subscribed, \$500.

SAVE YOUR HAIR

With Shampoos of

And light dressings of CUTICURA, purest of emollient skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp, when all else fails.

Complete External and Internal Treatment for Every Humour. Consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment to instantly allay itching, inflammation, and irritation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. A SINGLE SET is often sufficient to cure the severest humours, with loss of hair, when all else fails. Aust. Depot: R. TOWSE & Co., Sydney, N. S. W. So. African Depot: L. JENNIS LTD., Cape Town.
